SUMMARY

Communications and Design student at Southern Nazarene University with paid experience across video production, web development, and marketing. Currently the Marketing and Web Specialist at a roofing and exteriors company, where I own the website, the local search presence, and the internal software the office and field crews run on, and co owner of a two person studio that builds websites and business software for small companies. Comfortable carrying a project from the first client meeting through design, build, launch, and support.

EXPERIENCE

Marketing & Web Specialist

Feb 2026 – Present

McRay Roofing & Exteriors · Oklahoma City, OK

- Rebuilt the company website end to end, covering layout, copy, photography, and a contact form that writes leads directly into the sales team's system instead of an inbox; currently in final review before launch.
- Built and deployed the company's customer management system, used daily by a four seat office team to track jobs, customers, and documents, and administer the Linux server it runs on.
- Built the employee time clock that field crews punch into from their phones, with PIN sign in, payroll exports, and admin reporting.
- Automated a daily job recap that pulls from the company's job management platform and reaches leadership every morning with no manual work.
- Own local search optimization, service area content, and the photo and video library used across the site.

Co Owner

Aug 2026 – Present

Tethered Crew · Oklahoma City, OK

- Co founded a two person studio building websites and custom business software for small companies, splitting ownership, pricing, and client relationships evenly with my partner.
- Designed and shipped the studio's own brand and website, and set up the hosting every client project runs on.
- Delivered a full website rebuild and a custom supplier tracking system for a retail brokerage, my first engagement with a paying client outside my own work.
- Write the proposals, scope the work, and stay on as the client's point of contact after launch.

Student Worker, Creative Media · Lead Videographer

Aug 2025 – Present

Southern Nazarene University · Oklahoma City, OK

- Shoot, edit, and deliver video for university departments and campus events, handling the project from the shoot through the final export.

Lead Videographer & Editor, University Weekly News

Aug 2025 – Present

Southern Nazarene University · Oklahoma City, OK

- Lead the video side of the student produced weekly news show, from shoot planning through the final cut, on a weekly deadline.

Media Lead Intern

May 2025 – Aug 2025

Fayetteville Chamber of Commerce · Fayetteville, AR · Hybrid

- Produced and scheduled video and social content that reached more than 30,000 viewers across the Chamber's digital platforms.
- Coordinated media coverage of Chamber events and member businesses alongside the communications staff.

Operations & Records Assistant

May 2024 – Aug 2024

Country Silk · Hybrid

- Maintained records and file systems and handled day to day operational and administrative work for a small team.

Travel Ball Umpire

2022 – Present

Freelance · Seasonal

- Officiate youth travel baseball, managing game situations, coaches, and close calls under pressure.
